Re: Use of Bio Diesel

With regard to the aforementioned product, we as Kipepeo Beach & Village have been using your Bio Diesel for the past year and have been very content with the quality and consistency of your product.

Our shopping vehicle and generators as well as our personal car are running on Bio Diesel with no negative side-effects whatsoever. Also no alterations have been made to our vehicles and generators to start using the Bio Diesel. Another positive statement is that our fuel economics have improved with the use of Bio Diesel.

Therefore we certainly want to continue using the Bio Diesel indefinitely and we would like to see you continue to be able to supply accordingly

We highly recommend your initiative to produce and supply Bio Diesel as it also helps the green footprint in a sustainable and responsible manner

Yours truly

D. G. Andrews
General Manager
